

# 2018 Global Advisory Workshop

## Transforming the Korean bio-health ecosystem: Science Commercialization and Globalization

July 16<sup>th</sup> through 18<sup>th</sup> 2018

Main Venue: Novotel Ambassador Seoul Gangnam

### KAIST Center for Bio-Healthcare Innovation and Policy (CHIP)

CHIP aims at helping develop the budding bio-healthcare industry in Korea by facilitating dialogues between businesses, research institutions, and government. For this purpose, the center will provide partnership opportunities and develop networks.

One key strategy of the center is to leverage global resources. Thus, the center has invited four members of the Advisory Board. During the Advisory Workshop, CHIP holds group sessions around the visiting advisors.

You are cordially invited to attend group session of your interest during the Workshop.
